**How do we create a future in which people and nature can thrive?**

_____

How do we create a future in which _____ and _____ can thrive, this is the biggest question of our times.

What can we to make sure we have a future? We can start by_____

how we go to this point. In the past, we live in _____ with nature but it wasn't an _____ life. We learned how to tame the wild and use resource to grow our _____.

There's just one problem, unless we changed the way we live, the age of human is due to be _____.

The underlying big issue is our planet is becoming less wild, and human has cleared 3,000,000,000,000 trees, used half of the farming lands and wild animals have been reduced by _____%. All this can change if we regain our balance.
