$\frac{4}{8}$	$\frac{1}{2}$	$\frac{8}{16}$	$\frac{2}{4}$	$\frac{6}{12}$

# SUMA Y RESTA DE FRACCIONES

Recuerda que para sumar o restar fracciones que tienen el mismo denominador:

1

Sumamos o restamos los numeradores según sea el caso (recuerda observar los signos).

2

El denominador solo se copia.

**Nota:** Despues de sumar o restar debes simplificar tu respuesta.

$$\frac{24}{25} + \frac{6}{25} - \frac{10}{25} = \underline{\quad}$$

$$\frac{6}{8} + \frac{6}{8} - \frac{10}{8} = \underline{\quad}$$

$$-\frac{25}{50} + \frac{7}{50} - \frac{8}{50} = \underline{\quad}$$
