

GUIDE NOTES: Neolithic period

As you can see - Let's go on - Secondly -
Firstly - Hi everyone - There we go

_____!

_____ talking about the Neolithic period.

_____!

Our team is going to explain to you how Neolithic human lived:

- _____, let's talk about **lifestyle and shelter**.

During the Neolithic period people stop being nomad and become sedentary.

_____, they start living in the same place, in houses. They construct small villages.

- _____, we are going to talk about **food**.

Neolithic human produce food by cultivating the land and domesticating animals. They also continue hunting, fishing and collecting fruits.

Families start storing food in special bins or even in pits.

what about - In contrast to - Finally -
it comes the moment - Next

- Now, _____ to speak about **tools**.

During the Neolithic, tools become more elaborated, they are sharper and more durable. Now, it is easier to hunt and cultivate the land more effectively.

They discover pottery and start making ceramics.

- _____, let's see how they make **clothes**.

Neolithic humans invent the loom. From that moment on, clothes are more elaborated and they are more durable.

- And _____ the **art**?

Neolithic humans start making ornaments to identify tribal leaders or members.

- First megalithic structures appear. They use them to burial and worship.

- _____, we want to talk to you about a **great invention** of this period.

_____ fire, the wheel is an invention, not a discovery. It makes agricultural tasks much easier. They use the wheel also to transport heavy things.
