pizza

What do you want for dinner tonight? If you said pizza, you're not alone. Pizza is one of the world's most loved foods .

Pizza was first made long ago in Italy. Flat circles of bread were topped with tomato sauce and cheese. Sometimes people added meat or vegetables. As people in different places learned about pizza, they came up with new ways to make it.

Today, many places have their own special kinds of pizza. New York is famous for big pizza slices with thin crust. Chicago is known for thick pizza baked in deep pans. In Sweden, you can order pizza topped with fruits like raisins or bananas.

Pizza can be made with lots of different doughs, sauces, and toppings. With so many different choices, picking your favorite pizza can be hard!
