

Hello, Good morning. My name is Angela,

I was born in Santa Cruz of Tenerife, but I grew up in the south of the island.

I'm in an English course, that's why I'm writing this letter in this language

I lived in Granada for one year, it's beautiful.

I have traveled to London, Paris, San Sebastián, Madrid, and I have been in all Canary Islands too.

I like to travel and know other customs

My mother's name is Rosa, she is shorter than me,

her eyes are green, and her hair is short curly and white.

My father's name is Carlos, he is taller than my mother,

his eyes are brown, and his hair is short curly and white.

He was born in Madrid too.

I'm have the same eyes colour than my mother, and the hair as my parents.

They come to Tenerife forty-nine years ago for work.

I have two brothers, I'm the one in the middle and the only girl.

My older brother live in Madrid, with his wife, and my niece, but they are not married .

I haven't seen them more than two years ago due to the Covid.

My husband's name is Zeben, we get married four years ago, but we are together nine years ago.

He has short hair and brown. He is from Güímar. He is welder and he is autonomus.

I have eight agapornis, and they are free in the house.

I haven't worked for more three years, for my health.

I studied administrative and I worked as it,

but my last jobs were as waitress in restaurants and hotels, when I can practice my English.

Actually, during the week I study English in the morning,

later I have lunch and sometimes I have a nap.

In the afternoon I do some exercices,

I play with my Agapornis, cook, and when my husband came back,

if he is not very tired we go to the supermarket, and go for a walk

On the weekends I always clean my house and cook for the week.

My husband and me I like to go to the excursions with 4x4

and meet places in the island, and we usually go.

We also like to do barbecues at the mountain.

Thanks for read my letter.
