1. Видовременные формы глагола

I am twenty now but I like fairy-tales very much. I always **1** ... them. I think I **2**... read at the age of five. And since those years I **3** ... fond of books, especially fairy-tales. When a child, I **4**... a lot. Wherever I **5**... with my parents I always **6**... my favourite books with me. They **7** ... for me or **8** ... as presents. "You **9**... again, my dear!" my mother used to say coming into my room. "It is late. I **10**... out the candle." I usually **11**... in the following way, "But I **12** ... the paragraph yet. If I **13** ... reading I **14**... what the end is. Please, **15** ... me close the book." But she usually **16** .... She said I **17**... to finish it the next day and added I **18** ... for several hours. When she **19** ... the room I **20** ... of being as old as my Granny. I **21**... she **22** ... a long and difficult life, but she **23** ... independent. "I **24**... like her?" I **25** ... myself in the dark.
