### Practice 6   Subtraction: Comparing Two Sets
to Subtract
Solve. Use models to help you.

1.   Rosita fried 166 fish balls for a party.
      She fried 77 fewer prawn balls than fish balls for
      the party.
      How many prawn balls did Rosita fry?

166

fish balls

prawn balls

?   77

$166 - 77 =$ ☐

Rosita fried _____ prawn balls.

2.   952 children watched a musical.
      265 fewer adults than children watched the musical.
      How many adults watched the musical?

952

children

adults

?   265

☐ ◯ ☐ = ☐

_____ adults watched the musical.

apter 3: Word Problems: Addition and Subtraction

6

3. Ali has 347 durian trees in his orchard.
He has 162 more durian trees than rambutan trees in his orchard.
How many rambutan trees does Ali have in his orchard?

[ ]

[ ]

[ ] [ ] [ ] = [ ]
?

Ali has _____ rambutan trees in his orchard.

4. At a barbecue party, Samli ordered 219 sticks of chicken satay.
He ordered 120 more sticks of chicken satay than mutton satay.
How many sticks of mutton satay did Samli order?

[ ]

[ ]

[ ] [ ] [ ] = [ ]
?

Samli ordered _____ sticks of mutton satay.
