Reading comprehension

POLAR BEARS

Polar bears live in the Antarctic. They eat seals, birds, and fish. They can smell their food underwater, and they can swim in cold water for days.

COWS

Cows are animals that live on farms. They give us milk. They like to eat plants and grass, and they drink a lot of water.

DOGS

Dogs are domesticated animals. Dogs have 4 legs, and they make "woof" sound. Dogs can run and jump. Dogs can smell and hear very well.
