Interpreting Block Diagrams

Mrs Foster asked her class how they travelled to school this morning. She displayed the results in a block diagram.

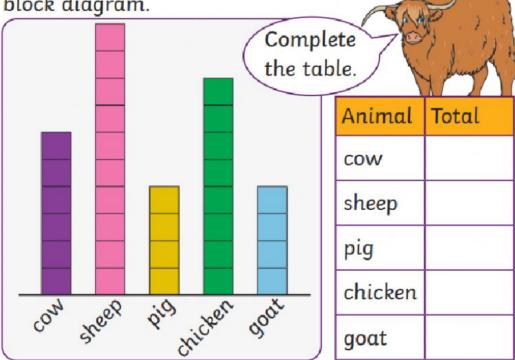

- 1) How many children came to school by car?
- 2) How many children came to school by bike?
- 3) Which form of travel did 4 children use?
- 4) Which form of travel did 2 children use?

Class A went to the farm. They recorded how many farm animals they saw using a block diagram.

True or False?

 There were 8 chickens in 	۱ all.
--	--------

- 2) There were 3 more sheep than cows.
- 3) There were 4 fewer goats than chickens.
- 4) Class A saw 16 cows and sheep altogether.
