

Listen & tick the box.

What should we do in an earthquake?

1. Listen to older people stay together with your family and try to support your family.

2. Do not run away.

3. Tell your parents if you hear a warning on TV or the radio.

4. Take shelter under a piece of furniture.

5. Stay away from windows and mirrors.

6. Cover your head.

7. Move important items to higher places.

8. Don't touch electrical devices when there is water around.

9. Return with your family only when rescue workers tell you that it's safe.

10. If you're driving, pull up your car at a safe distance then stay inside until it is over.
