Part 2. Read the passage do the 2 tasks that follow

One of the most famous monuments in the world, the Statue of Liberty, was presented to the United States of America in the nineteenth century by the people of France. The great Statue, which was designed by the sculptor Auguste Bartholdi, took ten years to complete. The actual figure was made of copper supported by a metal framework which had been especially constructed by Eiffel. Before it could be transported to the United States, a site had to be found for it and a **pedestal** had to be built. The site chosen was an island at the entrance of New York Harbour.

By 1884, a statue which was 151 feet tall had been erected in Paris. The following year, it was taken to pieces and sent to America. By the end of October 1886, the Statue was put together again and it was officially presented to the American people by Bartholdi. Ever since then, the Statue has been a symbol of liberty for the millions of people who have passed through New York Harbour to

LIVEWORKSHEETS

make their homes in America. In 1984, it was designated a UNESCO World Heritage Site. The UNESCO "Statement of Significance" describes the statue as a "masterpiece of the human spirit".

Choose the best answer
