

Comprehension

A. Sequencing

Read the passage then sequence the events in the order as they occurred.

“The Passion Fruit Drink Stand”

It was a very hot day so Adam and Justin decided to set up a passion fruit drink stand. Adam had planted a purple passion fruit vine while Justin had planted the yellow ones.

They made a jug of juice by mixing two pot-spoons of white sugar in some warm water, with the passion fruit seeds.

Firstly, Adam mixed the warm sugar water and put it in the blender. **Secondly**, Adam cut 2 passion fruits, for every jug of juice. **Next**, using a teaspoon he scooped out the seeds. **Then**, Justin put the seeds in the blender with the warm sugar water. **Lastly** they strained out the juice into a jug, after blending it. They kept the jug of juice in an ice cooler.

When a customer came they put 3 ice cubes into a large cup and poured some juice. They sold a cup of juice for \$10:00. By the end of one hour they easily made \$100:00.

Sequence the events in the correct order in which they occurred by writing in the numbers 1, 2, 3, 4 and 5 on the correct lines.

_____ They strained the juice into a jug after blending it.

_____ They mixed some warm water and white sugar.

_____ They cut 2 passion fruits and scooped out the seeds into a blender.

_____ They made a lot of money that day.

_____ They served their customers an icy cold drink on a very hot day. (5 marks)
