

Landforms and Bodies of Water

Fourth Grade

Name: _____

Miss Gutiérrez

Instructions: write the name of the following landforms or bodies of water.

Instructions: match the landform or body of water with the correct definition.

Plain •

• A body of water that has land all around it.

Valley •

• Land that is mostly flat.

Peninsula •

• A landform that has water on only three sides.

Lake •

• A large body of water that is partly surrounded by land.

Gulf •

• Low land between hills or mountains, often with a river or stream flowing through it.
