

## 11.

**1. Which 3D printed product can already be bought?**

- A) computers
- B) glasses
- C) mobile phones

**2. Which THREE materials can be used in 3D printers?**

- A) paper
- B) metal
- C) wood
- D) glass
- E) concrete

**3. Fill the gaps below with no more than TWO words.**

**Advantages of 3D printing:**

As the technology develops, it will allow many products to be \_\_\_\_\_. Items will be delivered digitally, therefore reducing \_\_\_\_\_ and permitting more local manufacturing. The process will also lead to a reduction in \_\_\_\_\_ and a rise in \_\_\_\_\_.
