Over the \_\_\_\_\_ of the last weekend, the local authority collected 20 tonnes of rubbish from one beach. It costs the authority a great \_\_\_\_\_ of money to collect the rubbish, but they take \_\_\_\_\_ in their beach, and they want to \_\_\_\_\_ visitors. The leader of the local council would like people to take \_\_\_\_\_ for their rubbish and take it home.

He believes that there is an \_\_\_\_\_ of personal responsibility, but that suppliers should also think about how they \_\_\_\_\_ their goods. He says that the council needs to attack the problem at both \_\_\_\_\_.
