PART II. READING (3.0ms)**Read the passage and then decide if the following statements are true (T) or false (F). (1.0 m)****Living in Scotland**

Scotland is the UK's most northern country and has around 790 islands off its coasts – 130 of which have people living on them. Scotland is well known for its stunning landscapes, beautiful beaches and lochs, which are fresh water lakes. There are over 600 square miles of lochs in Scotland including the most famous one, Loch Ness.

It has a population of just over five million people which is about 8.5 per cent of the whole UK population. Over 2 million of these live in Glasgow and Edinburgh, and almost half of Scotland's population live in the Central Belt, where both the largest city (Glasgow), and the capital city (Edinburgh) are located.

Scotland also hosts one of the biggest arts festivals in the world. This is commonly known as the Edinburgh Festival but is actually made up of a number of different festivals which happen at different times of the year, though many do take place in August and September. Many people have heard of the Fringe Festival, but there are also the International Festival, the Film Festival, the Children's Festival and the Edinburgh Mela which is an intercultural festival.

Read the following passage and then answer the questions (2.0 ms)

Hurricanes, cyclones, and typhoons are all the same weather phenomenon; we just use different names for these storms in different places. In the Atlantic and Northeast Pacific, the term "hurricane" is used. The same type of disturbance in the Northwest Pacific is called a "typhoon" and "cyclones" occur in the South Pacific and Indian Ocean. The ingredients for these storms include a pre-existing weather disturbance, warm tropical oceans, moisture, and relatively light winds. If the right conditions persist long enough, they can combine to produce the violent winds, incredible waves, torrential rains, and floods we associate with this phenomenon. In the Atlantic, hurricane season officially runs June 1 to November 30. However, while 97 percent of tropical activity occurs

during this time period, there is nothing magical in these dates, and hurricanes have occurred outside of these six months.
