More than 80% of American high school students do part-time jobs in the evening, on weekends or in summers. These part-time jobs bring teenagers great advantages.

One of the benefits of the work is ~~the~~ students can learn the skills that will be useful for the rest of their lives. When the students work, they have to manage both the job and schoolwork. To be able to do so, they must be very organized and able to keep a sensible schedule. They also learn to cope with the job stress apart from the stress of the schoolwork. Some of the most stressful jobs include teaching, nursing, and police work. These skills help prepare teenagers for their later careers. High school students who work are more likely to succeed as adults than people who enter the job market at a later age with no work experience.

Teenagers want a lot of expensive things: clothes, mp3 players, smartphones, etc. Not all parents can afford them.
