## READING COMPREHENSION

**GRADE :** 5th of Secondary

**AREA :** English

I. Read the following passage, then answer the questions below :

### What's in fashion?

If there's one word to describe today's fashion, it's "unisex". It isn't easy to tell What's "in" for boys or what's "in" for girls because they all wear the same stuff. Here's our guide to unisex fashion.

#### ***Jewelry that's "in"***

***Rings and earrings*** are great, but remember with accessories, less is more. Bracelets and anklets are definitely "in" and chains aren't just a "girl" thing anymore. You can even create your own accessories using stones or sea shells.

#### ***What to wear on top***

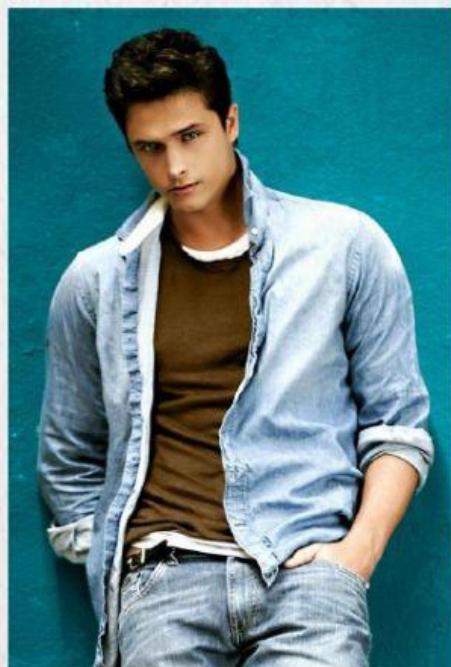

Every teenager loves t-shirts. They are never out of fashion and they're always comfy. You can even print your own design or photo on them. Colorful or plain, you can wear them just about anywhere.

#### ***We love jeans***

In the past, only factory workers used to wear these pants, but now everyone wears them, any time, any place. Casual, ripped, baggy or even formal ones decorated with stones, they're a favorite with boys and girls everywhere.

#### ***Comfortable wear***

Boots and sneakers are always comfy. You can wear them with jeans, skirts, shorts or pants. Some companies even let you design your own sneakers. But be careful; always match them with the style and color of your clothes.
