Listen to the first speaker and fill the gaps in the following text.

The plane has been developed by lots of people _____ the years, but the Wright brothers certainly made it work and made it _____. Planes existed before, people had made aeroplanes fly before, but I always have a huge _____ for the inventor who really makes it work; Henry Ford I have the same admiration for because he made a car _____, and made it _____, and made it work. So the Wright brothers for me are probably the most - should be the most - _____ people when it comes to aeroplanes.
