VI. Read this passage and choose from the passage NO MORE THAN THREE WORDS to complete the following sentences

Every day before I go to bed, I check the weather forecast at the end of the day to see if it will be sunny or rainy the next day. This has become my habit. The weather is different every season, right now it's summer in my place. Most days it will be sunny, but the rains can come at any time. My mother calls this season the hurricane season. Although this season is not cold, it rains a lot. Heavy rain and wind. I am very afraid of storms. When the storm came, the trees shook very hard. There are unstable trees that can fall, which is very dangerous for pedestrians. The season that I like the most is autumn. Autumn weather is clear and autumn temperatures are very cool. Currently, the weather has many sudden changes. Spring and autumn are no longer too obvious. The big reason is due to the change of the environment. We need to join hands to protect the environment so that the weather does not change badly.
