

CÍRCULO

$$A = \pi \cdot r^2$$

$$L = 2 \cdot \pi \cdot r$$

SECTOR CIRCULAR

$$A = \frac{\pi \cdot r^2 \cdot \alpha}{360^\circ}$$

-

ARCO CIRCULAR

$$L = \frac{2 \cdot \pi \cdot r \cdot \alpha}{360^\circ}$$

CORONA CIRCULAR

$$A = \pi \cdot (R^2 - r^2)$$

-

SEGMENTO CIRCULAR

$$A = \frac{\pi \cdot r^2 \cdot \alpha}{360} - A_{TRI}$$

Área del segmento circular AOB
menos el área del triángulo AOB
