

Text 03: What Happened to the Civilization of Easter Island?

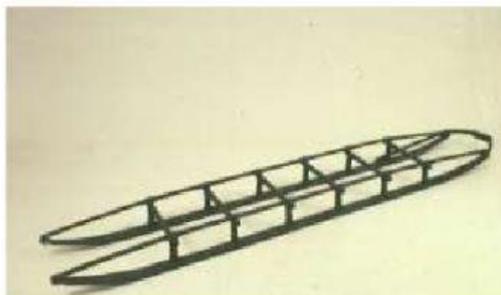

Vocabulary and Comprehension Quiz

1. Easter Island is known as Rapa Nui by the local people.  
TRUE                      FALSE                      NOT GIVEN
  
2. Which person thought that the moai were built by extra-terrestrials (aliens)?
  - A. Norwegian ethnographer Thor Heyerdahl
  - B. Swiss author Erich Von Daniken
  - C. US scientist Jarred Diamond
  - D. Archaeologists Hunt and Lipo
  
3. Which person believed that the Rapa Nui wrecked their own environment?
  - A. Norwegian ethnographer Thor Heyerdahl
  - B. Swiss author Erich Von Daniken
  - C. US scientist Jarred Diamond
  - D. Archaeologists Hunt and Lipo
  
4. The discovery of pollen preserved in lake sediment proved that Rapa Nui had not always been grassland. It had been covered with lush palm forests.  
TRUE                      FALSE                      NOT GIVEN
  
5. Which of the following was NOT a theory proposed in the text about how the moai were moved?
  - A. They walked upright.
  - B. They were placed on sledges and moved over log rails.
  - C. The local people used animals to drag the moai into place.
  - D. The statues were moved using a small number of people.
  
6. What 2 discoveries showed that the Rapa Nui were careful stewards of the land.
  - A. Canoes and fishing boats
  - B. Nuts from the extinct Easter Island palm trees with grooves and teeth marks from rats
  - C. Circular stone windbreaks and broken volcanic rocks
  - D. Rat skeletons and fossilized bird eggs

7. Hunt and Lipo's vision of the Rapa Nui people was one of people who were constantly fighting and competing with each other by building bigger and bigger statues.  
TRUE      FALSE      NOT GIVEN
8. What activity did Hunt and Lipo say helped the islanders to keep the peace?  
A. Fishing  
B. Gardening  
C. Building the moai statues  
D. Planting more trees
9. Which of the following is NOT a reason proposed by Hunt and Lipo in your text for why the population of the island decreased?  
A. Slave trading  
B. Arrival of the Europeans who brought diseases  
C. Rats  
D. Reckless deforestation
10. At its lowest point, the population of the island dwindled to only...  
A. 5,000  
B. 111  
C. 50  
D. 1100
