D. after

II. Read the passage, and decide whether the statements that follow are *True or False*

The world's energy resources such as coal, oil, and gas are limited. Therefore, if we don't start conserving them now , it will be too late. And solar energy is the only real alternative. This energy can be collected from the sun by solar panels on the roof of houses. These panels can create enough energy to heat an entire house. Solar power is clean and there is a lot of it in sunny places. But when the weather is bad, there is no sunlight for energy.

1. The energy resources are endless.
2. If we conserve energy resources now, we will lack them in the future.
3. We can also collect energy from the sun.
4. Solar power is unpolluted and inexpensive.

III. Choose the word or phrase that best fits the blank space in the following passage.

It is very important (1)water carefully. Here are some ways you can use less water. First, you should (2).....you turn off the faucets tightly. They should (3)in the bathroom or kitchen sink. Second, you should not keep the water on for a long time. You should turn it off while you are doing something else. It should be off while you are shaving or brushing your teeth. It should also be off while you are washing the dishes. Finally, in the summer you should water your garden in the evening. That way you will not lose (4)water.
