Hair Facts

Here are some interesting facts about our hair. Human hair grows about one-half inch per month or 15 centimeters a year. The hair on our scalp is dead. That's why it doesn't hurt when we get a haircut. The average person has about 100,000 strands of hair. Every day we lose 75 to 150 strands of hair. One strand of hair grows for two to seven years. After it stops growing, it rests for a while and then falls out. Hair grows faster in warmer weather, and women's hair grows faster than men's hair.
