## **Mathematics**

## Averages

Find the averages of these set of numbers

- 1) 2, 3, 5, 6, 8, 2, 8, 4, 7
- 2) 7, 5, 3, 5, 2, 8
- 3) 9, 9, 4, 6, 5, 9
- 4) 5, 2, 4, 4, 4, 5, 9, 8, 4,
- 5) 61, 21, 80, 46, 37, 70, 59, 65, 46, 39
- 6) 72, 85, 76, 94, 83
- 7) Adam has the following data:

2, t, 6, 5, 3

If the mean is 4, which number could be 4

8) The weekly tips of 6 packing boys are as follows:

Andrew	James	Peter	Alfred	Tony	John
\$113	\$120	\$114	\$119	\$114	\$110

Calculate the mean tip

Find the mode of these set of numbers

- 1) 35, 56, 34, 44, 52, 12, 34, 45
- 2) 100, 70, 80, 110, 60
- 3) 8, 6, 7, 5, 6, 2, 5, 9, 9, 4, 9, 6
- 4) 75, 60, 80, 75, 55, 60

5) Some teacher compared how many students were in their class

Teacher	Number of Students
Mr. Hall	LM1
Mr. Garcia	- 11
Mr. Taylor	IMI
Mr. Moore	1111
Mr. Wilson	- 11

What was the mode number of students the teacher had?
