LESSON 1 ... Draw points , lines and rays

(الهدف) Outcomes: I can Draw Points, Lines , Rays and identify each figures

تعليم

Point A	Line AB	Line segment AB	ray AB
 An exact location represented by a dot	 a straight set of points that extend forever in opposite direction	 A part of a line between two endpoint	 One endpoint and one direction without ending

Q1 : Choose the correct answer:

1) Which is the correct way to represent the figure :

a) $\overline{VZ}$ b) $\overrightarrow{VZ}$ c) $\overleftrightarrow{VZ}$

2) Which is the correct way to represent the figure :

a) $\overrightarrow{MN}$ b) $\overleftrightarrow{MN}$ c) $\overline{MN}$

3) Which correct name of the figure :

a) line segment b) ray c) line

4) A .....is part of a line between two endpoints

a) line segment b) ray c) line
