

Day: _____

Jobs in the Future
Teachers

Date: _____

Read the passage.

Now, teachers are humans who are in the classroom. In the future, teachers will be replaced by robots.

Being a teacher will be better in the future. Human teachers will have time to prepare lessons while the robots teach children.

Many people think that robots will be better teachers. They will not get tired like human teachers. Robots will work all day and will not need to sleep. Robots will not need holidays. Schools will be open for longer.

A. True or False.

1. Human teachers teach to a group of students in the classroom. _____
2. Human teachers will have to prepare the lesson for the robot teachers to teach. _____
3. Robot teachers will never get sick. _____
4. Human teachers need holidays to rest. _____
5. Robot teachers will replace human teachers in the future. _____

B. Classify the things to compare between human teachers and robot teachers in the columns below. Make sure the phrases matched to show the correct comparison. The first ones have been done for you.
