

UNITY

Mark Long, Andrew Charlewood

Listen up
As we say
Our future's now it starts today
Stand with us
Side by side
As we respond to the rising tide
We've been left
To do what's right
We challenge you with no more mights
Ohhohh

[Prechorus 1]:
You may be left
And think you're right
It's time to dance instead of fight
You may be right
And far from left
Let's come together to stop this theft
In the middle ground
We must be fair
Our choice is made
To take the dare

[Chorus]:

Change is always possible
Cause we are unstoppable
Change is always possible
Cause we are unstoppable

[Verse 2]:
Standing rock
Made us tall
As we listened to the call
Now the youth
Planet wide
Take a stand on our mother's side
We'll earn more
By taking less
And now it's time to give our best
Ohhhohhh

[Prechorus 2]:
The power is ours
It's in our grasp
To build a future that's gonna last
So come from the left
Or from the right

We're here to dance and not to fight
In the middle ground
We must be fair
Our choice is made
To take the dare
[Chorus]

[Verse 3]:
We're the ones
We've been looking for
As we open up these doors
Our time is now
What's past is past
Let's build a future that's gonna last
We the people
Will rise as one
Doing all that must be done
Oohooohh
[Prechorus 3]:
Friday's here
To figure out
What our futures are all about
Our time has come
To make the change
Now we all must feel the same
In our middle ground
Given to share
Make a future
For all that's fair
