

ÁREA DEL CÍRCULO

Ejemplo Calcula el área del círculo de 5 m de radio.

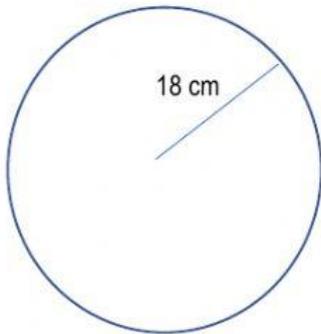

El ÁREA, se mide en la unidad indicada pero **SÍ** al cuadrado

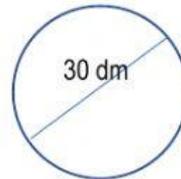

$$L = \pi \times r^2 = 3,14 \times 5^2 = 3,14 \times 25 = 78,5 \text{ m}^2$$

Para poner decimales hazlo con una coma

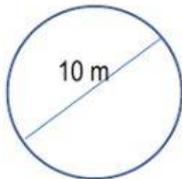

Calcula el área de los siguientes círculos:

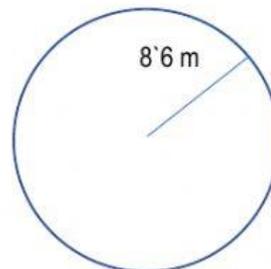

$$A = \text{___} \text{ cm}$$

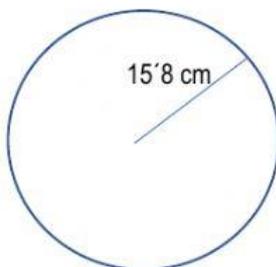

$$A = \text{___} \text{ dm}$$

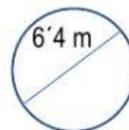

$$A = \text{___} \text{ m}$$

$$A = \text{___} \text{ m}$$

$$A = \text{___} \text{ cm}$$

$$A = \text{___} \text{ m}$$
