

Volum

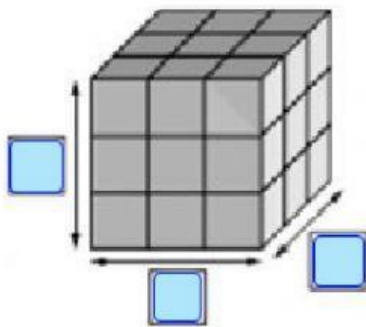

1. Compta els cubs i calcula el volum de cada cos imaginant que cada cub mesura 1 cm. Fixa't en l'exemple.

- Nombre de cubs:

$$\underset{\text{llarg}}{5} \times \underset{\text{alt}}{2} \times \underset{\text{ample}}{3} = 30$$

- Volum= 30 cm³

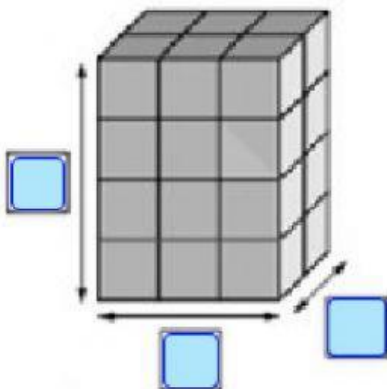

- Nombre de cubs:

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

llarg alt ample

- Volum= cm³

- Nombre de cubs:

$$\underline{\hspace{1cm}} \times \underline{\hspace{1cm}} \times \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$$

llarg alt ample

- Volum= cm³
