Impact 1 – Unit7: Cool apps and gadgets

Reading "Shein app"

- Do you love fashion and enjoy online shopping? If you do then, this app is for you, it will make your shopping experience easier and productive.
- Shein is worldwide known app for fashion trends. You can easily find what you are looking for there. The app offers for you a lot of discounts and endless coupons and It can ship your purchased items within a week or less. However, there are some issues like sometimes the shipping is delayed because of weather conditions or other things. Also, sometimes the sizes are not accurate, so you must check the measurements before you purchase.
- In my point of view, I think this app is amazing ,helpful and saves the time spent on actual shopping in malls and I give it 4 stars. I recommend people to download it
