

Name: _____

Song: New Empire - A Little Braver

With December _____ the glimmer on her face
And I get a bit _____
I get a bit nervous now
In the twelve months on I won't make friends with _____
When everyone's perfect, can we start over again?
The playgrounds they _____ rusty and your
heart _____ another ten thousand times before
I got the chance to say: I _____ you

When it gets _____
I get a little _____ now I get a little braver now
And when it gets _____, I get a little _____ now
I get a little _____ now before I give my _____ away

Well, we _____ each other at the house of runaways
I remember it perfectly we were running on honesty
We moved together like a _____ lock and key
But now that your lock has changed
I know I can't _____ that way

The playgrounds they _____ rusty and your
heart _____ another ten thousand times before
I got the _____ to say I _____ you

When it _____ hard
I get a little _____ now I get a little _____ now
And when it _____ dark I get a little _____ now
I get a little _____ now before I _____ my heart away

When it gets _____
I get a little _____ now I get a little _____ now
And when it _____ dark I get a little _____ now
I get a little _____ now before I give my heart _____

T. Antonela
