

My Friend

A friend is someone who is kind, who cares about you and who helps you. My friend's name is Arrow. She is very kind, very smart and very funny. When I need help with my work, she helps me. When I am sad, she tells me funny jokes or she hugs me. when I am hurt- when someone offends me, she is there for me. She is also kind to other students in my school. When I am angry, she calms me down. When I am mad at her she says maybe you need some alone time and she leaves and waits until I am ready to talk to her. She is very mature and calm almost all the time. She has never hurt anybody. Sometimes she is weird sometimes she is not.

And when I am hurt – when I hit my head, when I get a bruise on my leg, when I twist my ankle, she helps me up and takes me to the office to get a banded or some ice.

That is why I have the best friend in the world.
