

Unit 7: Cool apps and gadgets

Reading

Do you know that in the past, children used to go to the library to **look up** for information they need for their school projects? Now we can do an internet search at home and find everything we need. Things have changed a lot. Today you can find mobile **gadgets** all over the world, like laptops, smartphones, and tablets.

There is no doubt that mobile gadgets and the **apps** on them make our lives easier. They help us in many ways. For example, it's simple to stay in touch with friends and family because you can add them to your social media accounts. Moreover, we can chat with anyone from anywhere at any time. We can even **share** videos and photos with them.

Some people worry that we spend a lot of time with our gadgets, especially our smartphones, because the internet is very **useful**.

Select T or F

In the past, children used the internet to search for new information.

Apps on mobile gadgets are not useful.

Many people probably spend a lot of time on the internet.
