Reading Comprehension and Grammar

GRADE: 6th grade **ÁREA:** English

MY FRIEND JOHN

My friend John is from the island of Roys in Scotland. He lives with his parents, his three brothers and their pets. They've got two dogs and three cats. John's favourite animal is the smallest dog. It's white and hairy.

John's house is in the High Mountains. The High Mountains are in the south of Roys. They are a long, sharp line of black mountains. John climbs the mountains with his brothers.

The biggest town in Roys is Otto. It's in the north of the island. John goes to school there. He sleeps at school from Monday to Friday. It takes two hours to drive there from his house.

John loves summer in the island because he can go horse-riding with his dad to the forest in July. In winter it snows a lot and you can go skiing and snowboarding to the Frays Mountains in January. John often goes skiing with his brother Ben. In summer it's sometimes sunny but it often rains. John usually goes camping in August with his friends but it is often cold and rainy.

ANSWER T FOR TRUE F FOR FALSE
