## DISCUSSION *You be the judge!*

**A GROUP WORK** Which of these transportation services are available in your city or town? Discuss what is good and bad about each one.

..... taxi service  
..... the bus system

..... the subway system  
..... the train system

..... facilities for pedestrians  
..... parking

**B GROUP WORK** How would you rate the transportation services where you live? Give each item a rating from 1 to 5.

1 = terrible      2 = needs improvement      3 = average      4 = good      5 = excellent

A: I'd give the taxi service a 4. There are enough taxis, but there are too many bad drivers.
