III.- Read and match.

Adopt an animal at London Zoo

The people who work for the Zoological Society of London keep and look after endangered animals. They do research and study animals in the wild. They try to save species which are in danger of becoming extinct. And we can help!

Of course, we can't all work at the zoo, but anyone can adopt one of the London Zoo's many animals, and their donation will help animals all over the world.

There are so many animals to choose from! Here are some ideas ...

- * How about protecting the tigers? Their jungle habitat is in danger.
- * Do you like gorillas? They eat 12-18 kilos of food every day!
- * Do you love lizards? The Komodo Dragon is the biggest lizard of all.
- * How about a rhino? There are five different species.

There are lots of other kinds of animals, too – some live in the water, some live in forests or deserts and others spend most of their lives in the air!

Of course, you can't take the animal home with you. The animals are happy at the zoo, and the zoo keepers look after them very well. But you get a magazine with lots of photos and news every month, and emails from the zoo with news about your animal. The best thing is, you can go to the zoo to visit your animal as often as you want – for free!

Read again and match.
