

I TERMINI DELLA DIVISIONE

COLLEGA LA DEFINIZIONE NEL POSTO CORRETTO

The diagram illustrates two division problems. The first is $20 : 2 = 10$. The number 20 is blue, 2 is green, and 10 is red. Arrows point from 20 to a blue empty box and from 2 to a green empty box. An arrow points from the equals sign to a red box labeled "senza resto". The second problem is $21 : 2 = 10 \text{ r.1.}$. The number 21 is blue, 2 is green, and 10 is red. An arrow points from the equals sign to a red box labeled "con resto".
