Finally, to be a successful student, he/ she must be a good _____ to study and perform personal activities at the same time.

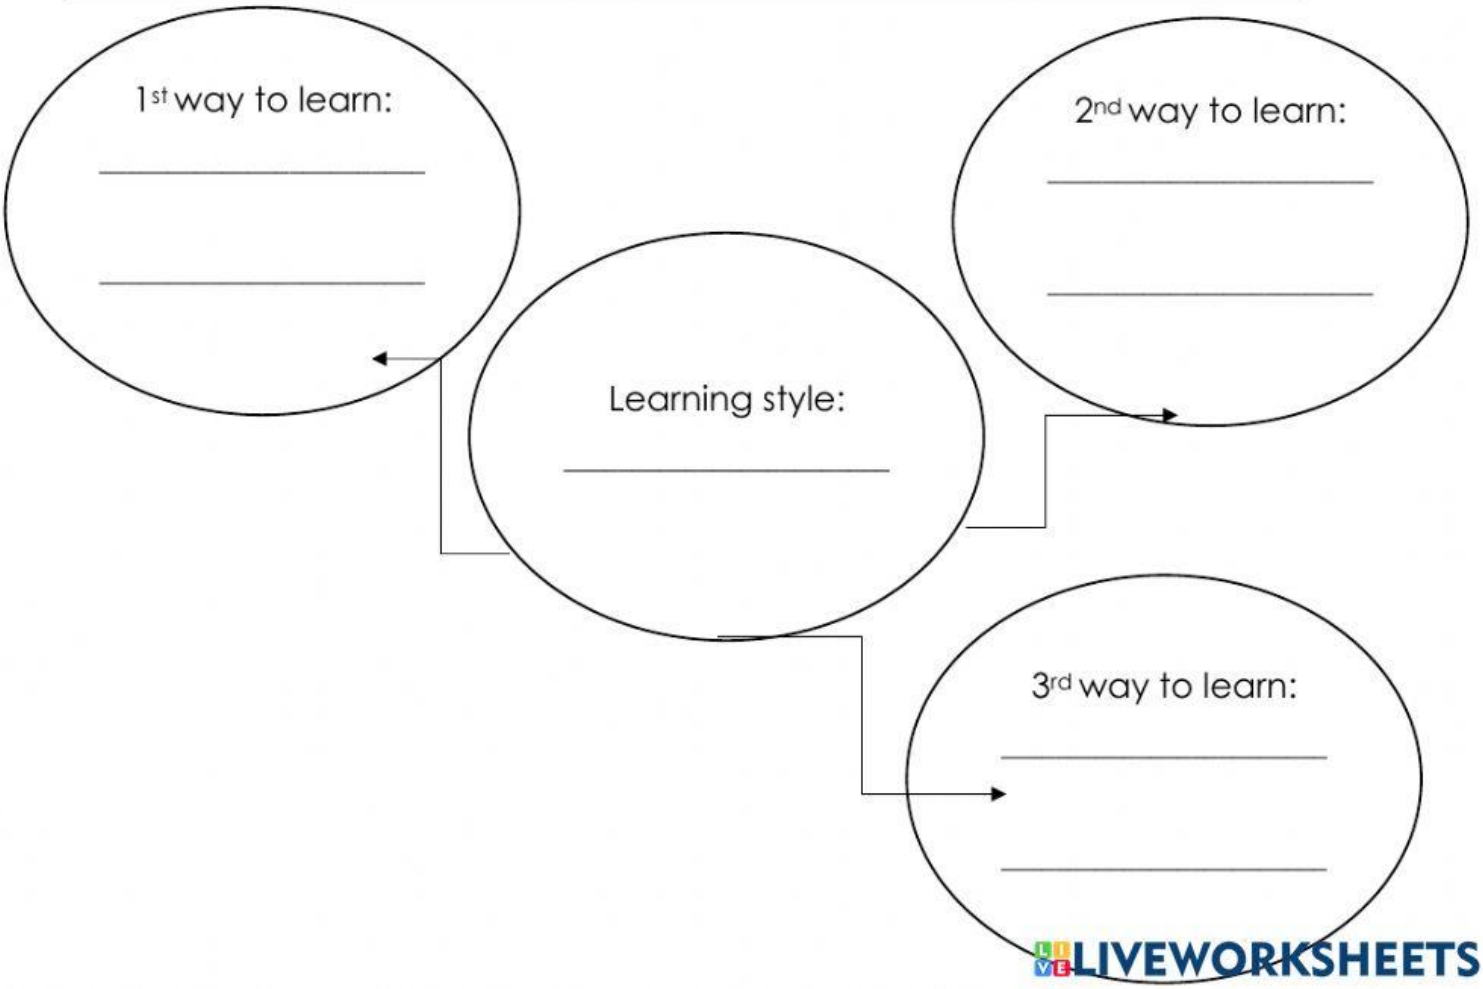

LIVEWORKSHEETS

C) Complete the requested information in the mind map according to the "Auditory Learning Style" (4 points, 1 point each)

Auditory Learning Style

If you are an auditory learner, you learn by hearing and listening. You understand and remember things you have heard. You store information by the way it sounds, and you have an easier time understanding spoken instructions than written ones. You often learn by reading out loud because you have to hear it or speak it in order to know it. As an auditory learner, you probably hum or talk to yourself or others if you become bored. People may think you are not paying attention, even though you may be hearing and understanding everything being said. Here are some things that auditory learners like you can do to learn better.

- Sit where you can hear.
- Have your hearing checked on a regular basis.
- Use flashcards to learn new words; read them out loud.
- Read stories, assignments, or directions out loud.
