Read the following passage, then choose the best option.

Vietnam usually has a dozen storms every year from June through the end of November, and most of which **occur** in the central and northern provinces. November 2nd, 1997, however, was unexpected day when the major storm Linda raged in the south. Linda was the worst typhoon in southern Vietnam over 100 years. Formed in the sea of the Philippines, Linda strengthened as it moved westward. Later, it struck extremely southern Vietnam with winds of 100 kilometers an hour. Over 3,000 people were reported lost and died. Ca Mau province, suffered a direct hit by the storm, . Linda later struck Thailand, causing flash flooding and at least 164 deaths. The storm also affected Myanmar, Indonesia, Malaysia and Combodia to lesser degree.

Today, residents in Mekong Delta still remember after 20 years. The duration of time is enough for a kid to grow up from an unforgetable event. The memory of a particular typhoon improves everyone's awareness of natural disasters.
