One day Frank Baum was telling a story to some children. He told about a girl named Dorothy. She was swept from her home to a strange land. It was a magical place. One of the children asked Baum about the name of the strange land. He looked around the room. He saw a filing cabinet (*шкаф с ящиками*). One drawer was labeled A-G. The next was labeled H-N. The last drawer was O-Z. He looked at the last drawer and named the land Oz. Baum later wrote the book "The Wonderful Wizard of Oz".
