

FUTURE

Possibility with 'will'

Rank the twelve events below according to how likely they will happen in the future. Then compare and discuss with a classmate.

- 1 = probably in a few years
- 2 = perhaps in twenty or thirty years
- 3 = maybe in one hundred or two hundred years
- 4 = probably never
- 5 = impossible

Possible Event	Rank
People will take vacations on the Moon.	
Talking computers will translate English. You won't have to study English.	
People will live for 200 years.	
There will be no more wars.	
Robots will do all the housework.	
All information will be stored in computers, not in books.	
You will fly to work in your car.	
People will control the weather.	
All students will stay at home to study on the Internet.	
Smoking will become illegal.	
Scientists will find life on another planet.	
Everyone will stop eating meat.	

Discuss: In your opinion, which of these events will be good / bad for society? Why?
