Part I: Listening (3 ps)

Question 1: Listen and number. (1.0 p)

☐☐☐☐

Question 2: Listen and circle A, B or C. (1.0 p)

- A large group of stars, dust and gas held together by gravity is a
A. solar system B. galaxy C. orbit
- An is someone who travels in space.
A. astronaut B. extraterrestrial C. engineer
- A flute is one the oldest instruments ever found which is years old.
A. 40000 B. 420 C. 42,000
- A is a powerful storm that can move very fast, although the eye at the center is calm.
A. tornado B. hurricane C. sandstorm

Question 3: Listen and complete. (1.0 p)

universe

planet

star

atmosphere

extraterrestrial

The word alien is a popular word for an extraterrestrial life-form, or a being from another (1) No one knows whether there is life elsewhere in the (2)..... But some scientists think that it is possible.

Most scientists believe that for another planet to have life on it, it must be similar to Earth in several ways. It is likely to need an (3)..... (air) and water. It also must orbit a (4), like the Sun, at a good distance. This star would provide the right amount of light and heat for life to exist.

Part II: Reading and Writing (5 ps)

Question 1: Look and write. (1.5 ps)

comet

drum

violin

piano

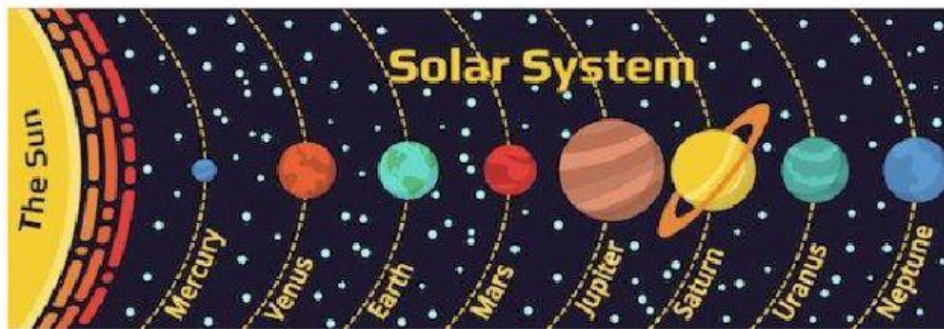

extraterrestrial

classical

Question 2: Choose the word whose underlined part is pronounced differently from the others. (1.0 p)

- | | | | |
|----------------------|------------------|------------------|--------------------|
| 1. A. mon <u>key</u> | B. <u>n</u> ame | C. <u>n</u> ever | D. fan <u>n</u> |
| 2. A. ho <u>t</u> | B. co <u>ld</u> | C. co <u>p</u> y | D. hip-ho <u>p</u> |
| 3. A. <u>i</u> s | B. wa <u>s</u> | C. <u>z</u> ebra | D. <u>s</u> tar |
| 4. A. <u>th</u> ing | B. <u>th</u> ink | C. <u>th</u> em | D. ba <u>th</u> |

Question 3: Read and tick (1.5 ps)

The solar system consists of the Sun and everything that orbits, or travels around, the Sun. This includes the eight planets and their moons, dwarf planets, and countless asteroids, comets, and other small, icy objects. However, even with all these things, most of the solar system is empty space.

The solar system itself is only a small part of a huge system of stars and other objects called the Milky Way galaxy. The solar system orbits around the center of the galaxy about once every 225 million years. The Milky Way galaxy is just one of billions of galaxies that in turn make up the universe.

1. The solar system consist of

- ☐ the sun
- ☐ the eight planets and their moons, dwarf planets
- ☐ asteroids, comets and small, icy objects
- ☐ All are correct.

2. The Milky Way galaxy is

- ☐ the sun
- ☐ the solar system
- ☐ one of the billions of galaxies
- ☐ the universe

3. The solar system has planets.

- billion
- 225
- eight
- countless

Question 4: Read and choose. (1.0 p)

1. you ever listened to classical music?
A. Has B. Do C. Have D. Are
2. She sings I do.
A. loudly than B. more loudly as C. louder than D. more loudly than
3. There life on other planets.
A. might B. might be C. might is D. might have
4. I want to believe in extraterrestrials, but really there's out there.
A. No one B. everyone C. anyone D. someone

Part III: Speaking (2ps)

Question 1: Introduce

0. What's your name?
1. How do you spell your name?
2. How old are you?
3. What grade are you in?
4. What's your hobby?

Question 2: Talk about solar system.
