X. Reading comprehension

World Environment Day which is held on 5th June every year is an important day in the calendar of the United Nations. ***It*** is one of the ways the United Nations uses to advocate for environmental protection and call for political action.

The theme for 2015 was "Seven Billion Dreams. One Planet. Consume with Care". This would also serve as the slogan for the World Environmental Day 2015. The meaning of this theme and slogan is that we have five continents with more than seven billion people combined. Although we have about 7 billion people, we just have one planet that we live and survive. The surface area is limited, shelter and food also limited. If we continue using the available natural resources as we do today, our future generations may be forced to go hungry and without homes. This is why it is of vital importance to consume whatever food that is available with care. Stop the wastage and use whatever resource that is available according to need, not greed.

"Join the race to make the world a better place" is the theme and slogan for 2016 UN World Environment Day. This slogan carries a clear message and asks everyone to get involved in making the

LIVEWORKSHEETS

world a better place to live in.
New Zealand where this day is marked by splendid and colourful ceremonies launched a massive campaign that was called "My Earth, My Duty". More people could be encouraged to get out of their homes and provide help that is aimed at ensuring that the environment is preserved for the future generations. This has been one of the most successful campaigns to mark World Environment Day 2015.
