Dear Brett,

Thanks for your email. You do lots of sports at school in Canada. I'd love to play ice hockey one day.

We do lots of sports at our school too. We've got a swimming pool at school and our class goes swimming every Wednesday. We also play tennis, volleyball and football, but football in Australia is different from soccer. You can touch the ball with your hands! There are lots of after-school sports clubs in Australia too. I go to a surfing club after school on Tuesdays and Thursdays. We go to the beach and learn how to surf. It's great fun! Can you surf in your country?

Write soon,

Rob

VII.Reorder the words to make sentences.

My name is Dick. I always wish to have a motorhome in my life. My motorhome won't need to be big, but it may have everything I need inside.

There will be a sofa and a lovely table in the head of the car. This will be the place for my friends when they visit me. It is like a living room. The biggest part of my motorhome will be the kitchen. It'll be in the middle of the car. There will be some model equipment in the kitchen such as dishwasher, fridge, oven, washing machine.... A small toilet and a shower will be in the kitchen, too. The last part will be my bedroom. It is also my entertainment place. There will be a small bed, a wireless TV, and a hightech computer. It would be fantastic if I had my own motorhome. The best thing about having a motorhome is that I can drive it myself to everywhere which I am interested in.

****Questions:***

VIII. Read the passage and choose the correct answer to each question.

When you're using electricity, think about where it comes from and how you can use less to protect the environment. Here are some simple ways to save energy:

• On or Off?

Leaving televisions and computers on standby with the little red light showing still uses up electricity, even though they might look like they're turned off. To stop this you can turn them off.

• Lights out!

Turning lights off when you're not in the room can save a lot of energy.

• Shopping:

Many products are now helping you to reduce your energy use and your parents' energy bills! Check new products for their efficiency grade and rating. Keep an eye out for the 'Energy Efficiency Recommended' logo.

• In the Refrigerator

The fridge is an important part of the kitchen. It keeps food fresh, cool and healthy! But it takes a lot of energy to keep cool, so help it by not leaving the fridge door open or putting hot things inside.
