never hazardous endangered flooding dump landfill later waste

The news is full of environmental horror stories. Drought in some countries, ¹ in others. We consume too much and ² ridiculous amounts of resources and energy. This year's presents are next year's ³, buried unwanted in the Earth. Sooner or ⁴, our planet will be uninhabitable ... or will it?

There are many inspiring stories from around the world. Here is one of them:

San Francisco Bay

Fifty years ago, San Francisco Bay was a huge mess with ports, factories, sewage plants, oil refineries and other industries lining the coast, all of them pumping ⁵ materials into the sea. The area was in danger of becoming a place to ⁶ everything. Even worse, wildlife in the area – birds, fish and other creatures – had become ⁷ due to a plan to fill parts of the bay in order to create more land for housing and industry. Luckily, three women decided it was now or ⁸ if they wanted to save the bay, and that's what they called their organisation: Save the Bay. And they did. Since then, the water has been cleaned up, wildlife has returned and the area is a favourite place for windsurfers and sailors.

6- Complete the sentences with a suitable word.
