4 Read the text. Write T (true), F (false), or DS (doesn't say). (5 points)

The tallest people in the world come from the Netherlands. And that's a fact! Men and women in the Netherlands are getting taller! People in other countries in the north of Europe, like Norway and Germany, are one or two centimeters shorter. They are twenty centimeters taller than people who lived in the country a hundred years ago. But why is it? Some people think it's because of the food they eat. They drink a lot of milk and eat a lot of cheese and meat.

1. People from the Netherlands are taller than people from Germany. ___
2. People from Norway are shorter than people from Germany. ___
3. In the past, people in the Netherlands were a lot shorter than now. ___
4. People in the Netherlands are very tall because of the food they eat. ___
5. People in the Netherlands don't often eat meat. ___
