IX. Read the passage and choose one correct answer for each question.

Many people still believe that natural resources will never be used up. Actually, the world's energy resources are limited. Nobody knows exactly how much fuel is left. However, we also should use them economically and try to find out alternative sources of power. According to Professor Marvin Burnham of the New England Institute of Technology, we have to start conserving coal, oil and gas before it is too late; and nuclear power is the only alternative.

However, many people don't approve of using nuclear power because it is very dangerous. What would happen if there were a serious nuclear accident? Radioactivity causes cancer and may badly affect the future generations. The most effective thing is that we should use natural resources as economically as possible.

1. According to the passage, using nuclear power is _____

- A. dangerous B. interesting C. safe D. cheap

2. Radioactivity from nuclear power _____

- A. the future generations do nothing with it
 B. alters a new kind of energy
 C. are necessary to cure diseases
 D. causes cancer and has bad effect on the future generations

3. How much fuel is left?

- A. No one know exactly B. Let's use it as much as we would like
 C. It will never be used up D. There is a lot of fuel

4. We should use coal, oil and gas _____

- A. as economically as possible B. carelessly
 C. as much as possible D. all are incorrect

X. Read the text carefully, and then choose the best option.

Mumbai, which is located in the western coast of India, is the (1) _____ of Maharashtra state. It is home to Bollywood, the centre of Hindu movie industry, and the film "Slumdog Millionaire" was based there. Poor people have to live in (2) _____. In the slum, people have to live with many problems. People have (3) _____ to the toilets in the streets and there are open sewers. Children play among sewage wastes and doctors deal with 4,000 cases of death a day (4) _____ lack of hygiene.

Next to the open sewers are water pipes which can crack and take in sewage. Dharavi slum is based around this area. There are toxic wastes in the slum including hugely

dangerous heavy metals. Dharavi is made of 12 different neighbourhoods and there are no maps or road signs. As you walk further into Dharavi from the edge, the area becomes (5) _____ crowded. People live in very small slums, often with many members of their extended families.
