Read the following passage

LIVEWORKSHEETS

Join our 3Rs Club today and you will save the earth

The purpose of our club is to encourage all the students to go "green". There are a number of ways we can do to reduce, reuse and recycle.

What can we reduce?

We can reduce rubbish. We should use reusable bags rather than plastics bags. We should buy things we really need. We should not throw old items away. We should give them to charity.

We should save energy by using less electricity and water. We should also use less paper.

What can we reuse?

We can reuse bottles, cans or boxes. We can also exchange used books and clothes with friends.

What can we recycle?

We can recycle used paper, glass bottles and cans. Recycling also saves energy.

37. The aim of the 3Rs Club is to_____.

A. reduce rubbish B. reuse old items C. save the earth D. save money

38. We shouldn't use_____.

A. reusable bags B. plastic bags C. old items D. electricity

39. If we don't use old items, we should_____.

A. give them to charity B. put them in rubbish bins

C. sell them D. buy them

40. If we use less water, you can_____.

A. save paper B. save electricity C. save energy D. save rubbish

Environmental pollution is a term that refers to all the ways by which man pollutes his surroundings. Man dirties the air with gases and smoke, contaminates the water with chemicals and other substances, and damages the soil with too many fertilizers and pesticides. Man also pollutes his surroundings in various other ways. For example, people ruin natural beauty by scattering junk and waste on the land and in the water.

LIVEWORKSHEETS

Environmental pollution is one of the most serious problems facing mankind today. Air, water and soil are necessary to the survival of all living things. Badly polluted air can cause illness, and even death. Polluted water kills fish and other marine life. Pollution of soil reduces the amount of land that is available for growing food. Environmental pollution also brings bad things to man 's beautiful natural world.

41. In which way do people cause air pollution?

A. Man throws garbage on the land.

B. Man dirties the air with exhausted gases and smoke.

C. Man damages the soil with fertilizers and pesticides.

D. Man contaminates the soil with chemicals and other substances.

42. What kind of environment pollution is caused by chemicals and substances in the seas, rivers and lakes?

A. Deforestation B. Water pollution C. Air pollution D. Soil pollution

43. Why is environmental pollution considered one of the most serious problems?

A. Because it can cause illness and even death

B. Because it can kill fish and other marine life

C. Because it can reduce the land for growing food

D. all are correct

44. What are the important elements to the survival of all living things mentioned in this text?

A. Food and water B. Air and food

C. Air, water and soil D. Water and soil
