ACTIVITY 1:

Advances in

Space Exploration:

The Origins of the Universe:

The James Webb Space Telescope, launched in (2021) is a powerful telescope.

It can look into very faraway locations.

This telescope allows Scientists to learn about the origins of the universe.

1. What is the name of the space telescope in the picture.

A. The Discovery Space Telescope

B. The Challenger Space Telescope

C. The James Webb Space Telescope

D. The Columbia Space Telescope

2. During which year was this Space Telescope launched into space.

A. 2018 **B. 2019**

C. 2020 **D. 2021**

3. This telescope is used to look into very …. locations.

A. close by **B. faraway**

C. large **D. small**

4. This telescope allows Scientists to learn about the origins of the ……

A. Earth **B. Moon**

C. The Sun **D. The Universe**
